MESA

MESA pairs integrated technology with an uncompromising modern design for the meeting spaces of today and tomorrow. Innovative perimeter power and data access drawers deliver a seamless, intuitive interface that is literally at your fingertips. Table surfaces are pure in material and form, with cantilevered spans engineered for beauty and comfort.

LEFT | Eliminate surface clutter and comfortably access technology with innovative concealed drawers.

RIGHT | Power and data cables are cleanly concealed within polished chrome bases supporting an etched glass surface.

Mesa cantilevered spans extend from a continuous base expertly crafted with premium hardwoods and grain-matched veneers.
