TIN TILES TODAY

The versatility and fire resistance of tin make it ideal for ceilings and backsplashes, however, it is the sheer WOW factor that makes tin tiles the go-to product for homeowners, DIYers, architects, decorators, and designers. Today, you'll find beautiful tin tiles everywhere, from kitchens, foyers, basements and accent walls, to bars, restaurants, and retail spaces, where they add a touch of elegance and class.

We invite you to browse through this catalog for design ideas. For even more inspiration please visit our online photo gallery at AmericanTinCeilings.com. There you will find hundreds of beautiful photographs which capture a wide variety of tin installations. Please contact us to learn more about how easy and affordable it is to have the tin ceiling or tin project of your dreams.

MADE IN AMERICA

American Tin Ceilings has been producing authentic, genuine tin tiles since 2002. Proudly made in the USA, from start to finish, everything is manufactured in our Florida facility. This allows us to provide high-quality, American made products with the best pricing possible and outstanding customer service. Our tiles are the real deal – genuine American-made, .010 tin-plated steel. Don't settle for anything less than the best.

We currently produce over 40 patterns in 50+ colors. We are pleased to offer our affordable sample pack program which lets you choose the colors you are considering for your project. This enables you to view our remarkable product in your home before making your selection.

QUALITY WORTH FOLLOWING

AN AFFORDABLE WAY TO GET SPECTACULAR RESULTS

American Tin Ceilings makes it easy and affordable to create the tin project of your dreams. Both modern and nostalgic, tin has become a sought-after design element for various installations. Our tin panels start at an affordable price of less than \$2/square foot and create spectacular results.

CEILING INSTALLATION

Tin Ceilings have begun a recent revival thanks to updated patterns & color options that speak to the trends and aesthetics of today's consumer.

We offer three installation options; Nail-Up, Drop-In and our patented Snap-Lock™ system. To decide which installation option is right for you, call one of our expert Design Consultants at 888-231-7500 or visit AmericanTinCeilings.com for detailed installation information, including helpful videos.

Nail-Up

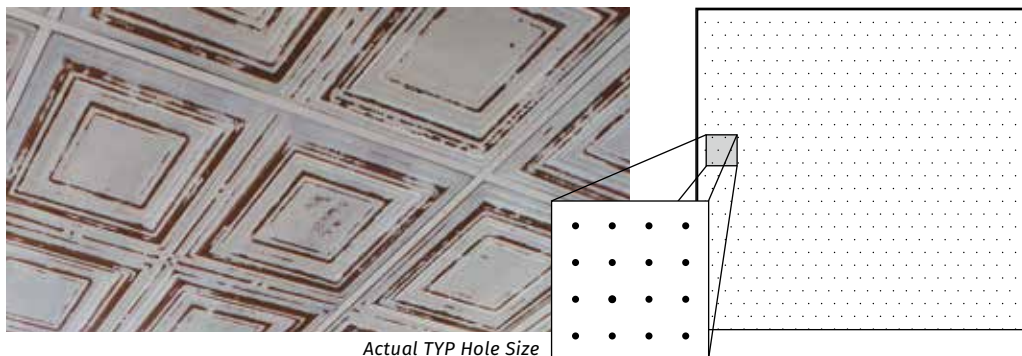

Nail-Up panels are ideal for ceilings as well as vertical installations such as backsplashes, wainscoting, and walls. Panels can be applied directly over plywood or furring. Each panel has a 1/4" nail-rail which allows for even spacing and easy installation. For backsplash or vertical application, panels can be simply adhered to the wall with construction adhesive.

Snap Lock™

Our patented Snap-Lock system is designed for use over any ceiling material including plaster, drywall or popcorn ceilings. The interlocking flange system screws directly into your surface, eliminating the need for furring strips. This installation is the number one option for renovation projects in homes with popcorn ceilings as no scraping is required!

Drop-In

For use in any 2' x 2' ceiling grid system, our Drop-In ceiling tiles fit all standard 2' x 2' grids with a 5/16" or 15/16" suspended grid system. For easy uniform installation, our flat recessed edges ensure each panel sits flush within the grid on all sides. If your current grid is 2' x 4' ask us about our T-bar conversion pieces.

Acoustical Drop-In

Designed with special auditory properties, our new extra microperforated Drop-In tiles offer superior sound performance by significantly reducing room echo. This unique feature is ideal for home theatres and basement installations. Available in most patterns, the sound absorbing holes are ultra-tiny to avoid compromising the beauty and style of the tiles.

BACKSPLASH INSTALLATION

It's hard to imagine a faster, easier, or more affordable way to add beauty and sophistication to your kitchen, bar, or bathroom.

Designed to be as aesthetically pleasing as they are functional, tin backsplashes can protect your walls from all kinds of wear and tear. With our easy to install, durable, washable, and fire-resistant tin tiles it's entirely possible to go from bland to beautiful in just a few hours! Our Nail-Up tiles make it easy and can be simply glued to your wall with construction adhesive. With over 50 colors to choose from we're sure you'll find just what you're looking for.

Pattern #35 | Silver Brushed Bronze

Pattern #19 | Copper Brushed Bronze

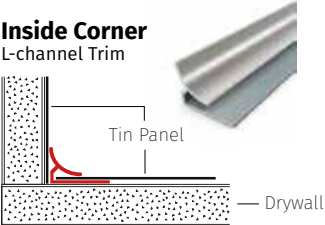

BACKSPLASH & WALL TRIM

All trim can be finished with the same industrial strength powder-coated and Artisan finishes to match your panels.

Edge
J-channel Trim

Inside Corner
L-channel Trim

DESIGN TIP: We suggest 6" repeating patterns for backsplash applications, as the pattern allows you to cut the panel to accommodate space between your cabinets and countertops. (Suggested patterns: 3, 17, 19, 20, 21, 27, 30, 31, 35, 36, 37, 39, 40, F1, F2).

FREE DESIGN SERVICES & EXPERT HELP

We're happy to help you choose and customize your tin project with assistance selecting patterns, colors, moldings and trim. We'll discuss what you like, what you need, and what you have questions about while exploring different ways to approach your project. We'll help create a plan just for you.

WAINSCOTING & SPECIAL PROJECTS

For a unique design element when installing wainscoting and for inspired DIY projects, our “Nail-Up” tiles offer the greatest versatility and can be applied with construction adhesive.

With the ability to use construction adhesive rather than nails, these tiles are great for installing over drywall, wood and plywood. The “1/4” nail-rail” that runs around the perimeter of each panel ensures perfectly spaced overlap for quick and easy installation. Whether it’s a wall covered in single or multi-patterned tiles for a dramatic statement, a traditional wainscoting application in a dining room or kitchen, a decorative accent to a cabinet or your favorite piece of furniture, such as a headboard or bookcase – Your imagination is your only limitation!

“We considered a typical wood wainscot, but wanted to use a more interesting material. We wanted something that would fit with the historical house, but maybe used in a different or unexpected way.”

– Silvia S.

WE’LL HELP YOU GET THE JOB DONE RIGHT

We want you to be satisfied with your completed project. Our expert Design Consultants are just a phone call away, 8AM-5PM EST M-F and our website is always available. With color-matched switch plates (*perfect for backsplash installations*), detailed and easy-to-follow installation videos, an online inspiration gallery, hard to find tools, and even matching touch-up paint, American Tin Ceilings has you covered. Visit us at AmericanTinCeilings.com or call us at 888-231-7500.

PATTERNS

We have 40 patterns to choose from! We offer filler patterns for transitioning between full tile patterns and the outer perimeter of a ceiling application. In addition to the patterns shown, we also offer blank, non-pattern tiles for Drop-In installations. All tiles are nominally 24" x 24" square. Patterns are shown in Brushed Satin Nickel.

ARTISAN FINISHES

Our Artisan finishes are the perfect choice for creating a dramatic and decorative statement in your room. These eye-catching color combinations enhance the natural beauty and pattern of each tile, creating a distinct and designer appeal. With our quality assured, multi-step process, each tile is powder coated, hand painted and distressed with precision care by skilled artists. Tiles are then sealed to ensure a lasting beauty.
