PROFILED WALL BASE SYSTEM™

Architectural details, such as wood trim, are becoming prevalent in commercial design. However, the details such as nailing, filling and finishing are labor intensive and costly. Contours Profiled Wall Base System™ offers the look of wood base with the enhanced properties resilient base touts such as resistance to chipping, absorbing moisture or splintering. Contours can also mask irregular surfaces and wrap around gentle curves. Contours installs easily and saves money and time during installation and over the life of the project.

PROFIED WALL BASE SYSTEM™

Q6 quicksix

MADE IN
USA

- Durable TPR rubber compound contains bio-based phthalate free plasticizer, from a rapidly renewable resource.
- Made in the U.S.A. and meets FloorScore®, NSF 332 Gold and CHPS criteria.
- Produced in 40' cartons. Available in 17 profiles with heights ranging from 3" to 7-3/4", a quarter round and corner options.
- Satin finish provides the look of custom-crafted woodwork, eliminating the nailing, sanding and priming associated with wood.
- Natural flexibility conceals irregularities in floors, walls and corners (e.g., seam of floor and wall, bowing walls, etc.), and allows for installing around architectural curves.
- All colors available at a Single Price Point. Other Roppe colors and custom colors available, minimums apply.

corner blocks

Q6 quicksix

- PVC free, phthalate free and Red List chemical free.
- Made in the U.S.A. and meets FloorScore®, NSF 332 Gold and CHPS criteria.
- Available in 2 profiles – Original (3/8") and Micro (1/4") corners. Recommended height is 1/4" taller than your intended base profile.
- Alleviate costly hand-scribing, wasted time and extra skilled craftsmen from the corner-forming process.
- Underlap wings attach to the wall adding durability to the installation so they are less likely to get damaged or detached during everyday use and maintenance of the interior space.
- All colors are inherent throughout and available at a Single Price Point.
