JAMIE BECKWITH®

COLLECTION

If we had no winter,

the spring would not be so pleasant;

if we did not sometimes taste of adversity,

prosperity would not be so welcome.

ANNE BRADSTREET

Throughout history, wood flooring and wood surfacing have been found in the most humble to the most opulent spaces. From the wide, rough-hewn planks used in farm houses, to the intricate parquet patterned floors gracing palaces and castles, wood has been prized for its beauty and warmth. Designers often specify wood for their projects because it brings a natural element to interior spaces, and because of its durability, availability and ease of installation and maintenance. However, their creativity have been limited by the traditionally linear strips or planks, most commonly available in the market place.

Jamie Beckwith created a new line of products that challenges the way you think about wood. In her interior design practice, Jamie was challenged to create truly custom solutions for high-profile clients who seek unique objects, uncommon finishes and exquisite materials. Travel, fashion and art have all played a role in the design of her innovative products. The *Jamie Beckwith Collection®* is comprised of four product lines that all draw on the beauty of wood, and the warmth and texture that can only be found in nature.

The *Enigma®* and *Mosaic®* lines have forever changed the limitations of traditional wood plank flooring and wood surfacing and created endless possibilities to infuse your space with creativity.

The *Enigma* line has 12 patterns, ranging from a classic tile shape to the fabulously ornamental. It is offered in several different wood species, and a number of finish options, so you can design a truly custom installation. While *Mosaic*, is a more traditional block pattern, that showcases the beauty of the grain pattern and is extremely durable. It is offered in a solid and split patterned block, and comes unfinished.

The *Projection®* line was designed and engineered for vertical and ceiling applications and is also offered as a solid or split pattern block. The Rustic and Linear line consists of 3 1/2" blocks that come in six thicknesses, to create a stunning interplay of texture, pattern, light and shadow. The varying thicknesses of the blocks can be arranged in an endless combination of patterns, limited only by your imagination. Wedge is a 10 degree angle block with a physical and emotional weight that gives a sexy and dangerous feeling when installed in commercial or residential environments.

Etched® is an innovative offering of prestige wood surfacing treatments for vertical applications. This engineered hard wood tile series combines organic wood surfaces animated by graphic etched designs. Each *Etched* tile is cut, sanded, stained and hand finished with a beautiful no VOC hard oil wax.

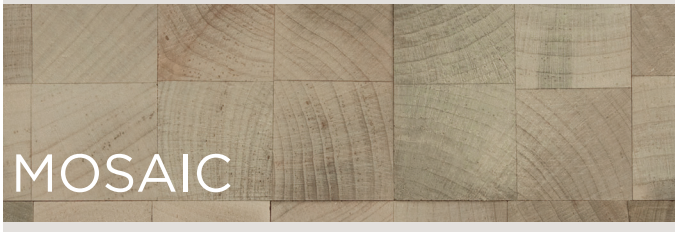

We invite you to unleash your imagination and discover the endless possibilities with the *Jamie Beckwith Collection®*.

ENIGMA

Rethink wood surfaces. In the past, there have been relatively few choices for wood surfacing, compared to the limitless options you have in tile. Now imagine Enigma® wood tiles, in an array of patterns, colors and species. The possibilities are endless!

The Enigma line was created to offer truly unique and custom wood surfacing designs to the trade. Consider some of these options— use one of the 12 patterns as a wall-to-wall flooring installation, mix colors and patterns on a wall surface, or create an inset rug pattern in a traditional plank floor.

Finally, floors and walls become a design element, instead of an afterthought.

grover

Sir John Melton wrote: "If a man walking in the fields find any four-leaved grass, he shall in a small while after find some good thing." This is indeed true for *Grover™* a pattern filled with good luck clovers. Inspired by Moorish patterns and designs, *Grover™* works with many different interiors.

I prefer winter and fall,
when you feel the bone structure
of the landscape —
the loneliness of it,
the dead feeling of winter.
Something waits beneath it,
the whole story doesn't show.

ANDREW WYETH

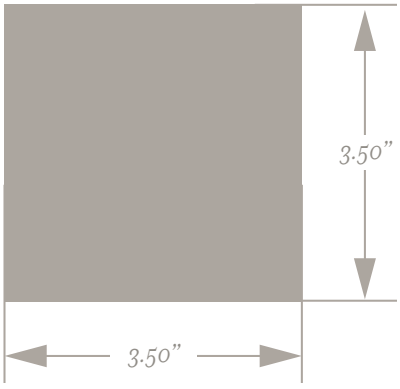

MOSAIC

Mosaic® is the art of creating images through an assemblage of small pieces. In this case, the pieces are beautifully patterned wood blocks. The resulting image is varied and ever changing, as the grain patterns swirl and merge across the floor. *Mosaic* is finished to your specifications, to create the image you desire for your home.

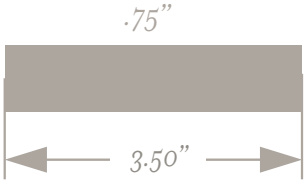

mosaic

The Mosaic® pattern features five species of end-grain square tiles in either split or solid block. The blocks are delivered and installed unfinished. They can then be finished in any number of ways, from sanded, stained, and urethane to waxed, oiled or limed.

ETCHED

The *Etched*® Collection is an innovative offering of prestige wood surfacing treatments for vertical and ceiling applications. This engineered hard wood tile series combines organic wood surfaces animated by graphic etched designs. Each Etched® tile is cut, sanded, stained and hand finished with a beautiful no VOC hard oil wax.

Currently 6 designs make up the Etched® series but custom commissions are welcomed. Inspired by the traditional warmth of wood but with an inventive and contemporary interpretation of ornamental patterns, every surface becomes a blank canvas to explore dimension, structure, shape and light.

PATTERN: *Chevron*

SPECIES: *Walnut*

FINISH: *Pickled Pearl*

chat

The digital age transforms the timeless quality of wood. Relevant, whimsical and hip describes *Chat*. As with digital information, the wood is encoded with the history of the tree. Shapes, text symbols, emojis, music notes, company logos or any script can be custom created for a one of a kind art installation. Let your imagination run wild with the possibilities.

Custom design fees apply.
