

DESIGN WITH XOREL

DESIGN WITH XOREL

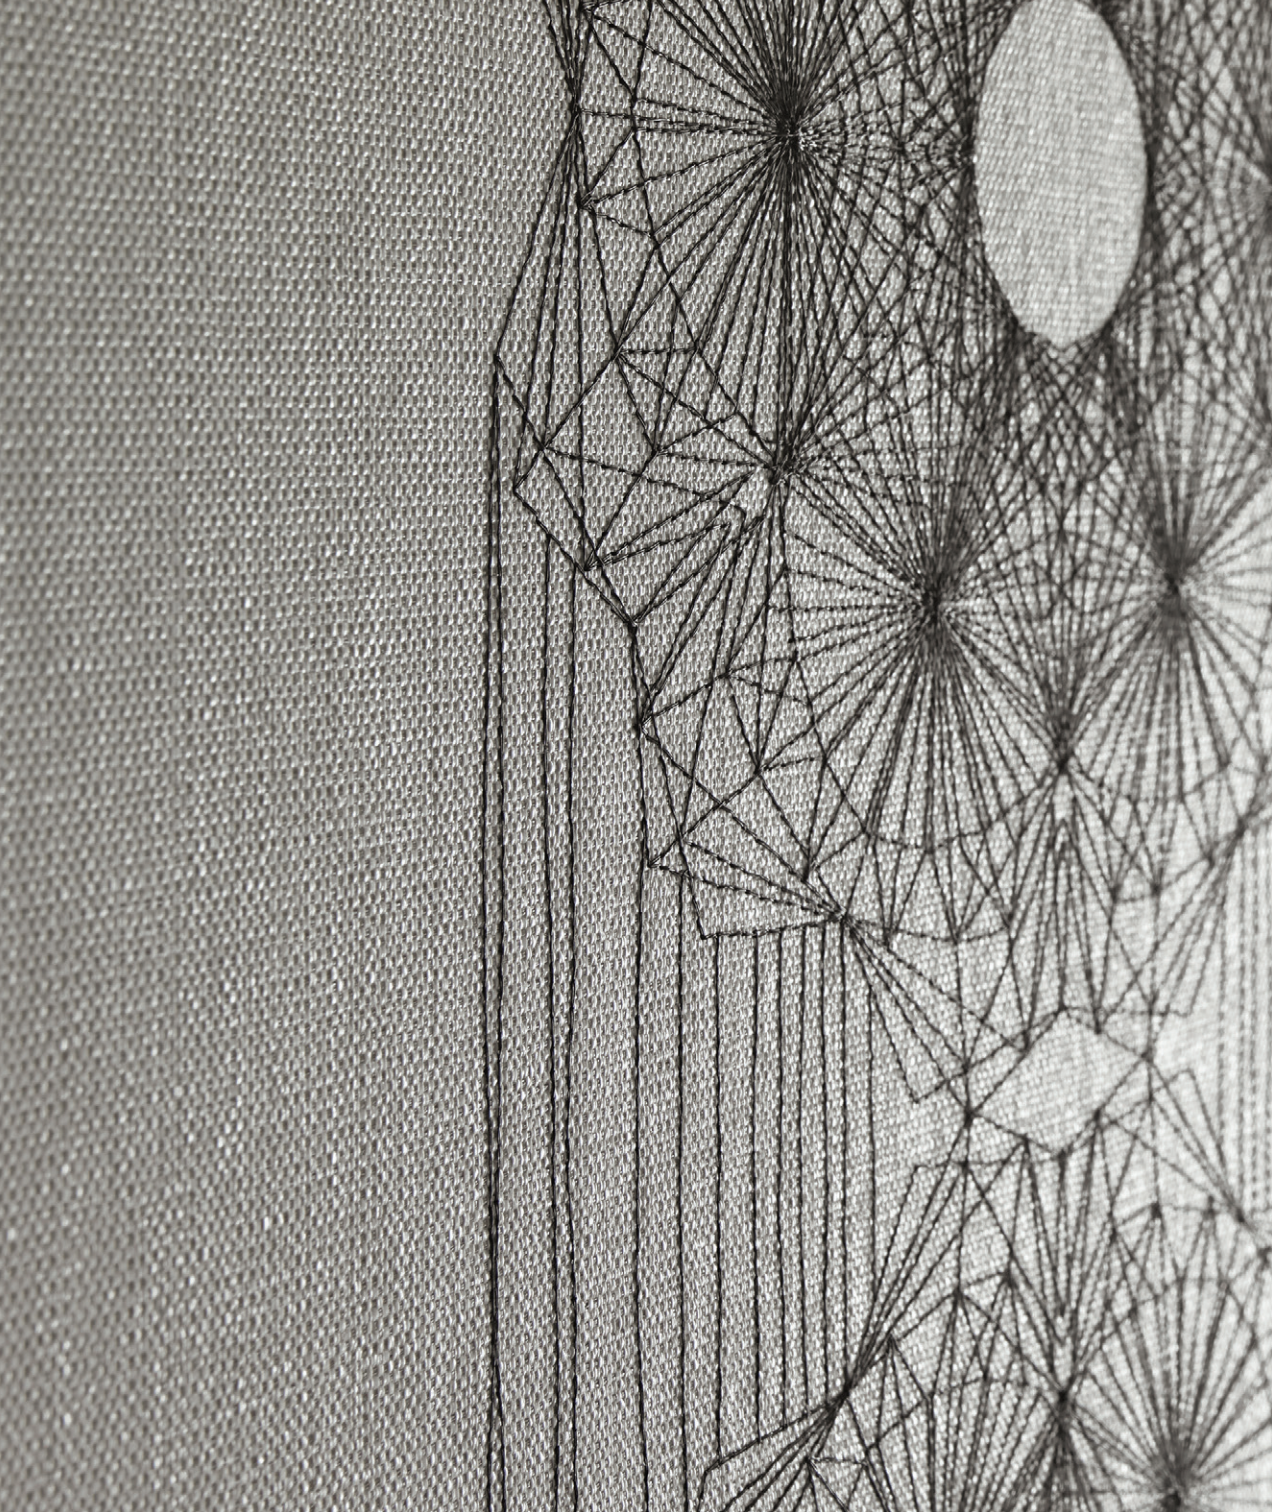

Xorel was borne out of a creative curiosity inherent to the DNA of Carnegie. As a design company we are committed to the development of high performing, sustainable materials for building interiors. Carnegie manufactures and delivers Xorel worldwide while achieving Cradle to Cradle certification.

Xorel has proven itself on installations around the globe since 1981. It is not a "look". It is a commitment to design, performance and sustainability that speaks to the nature of our company.

XOREL IS AN ORIGINAL

Before the introduction of Xorel in 1981, there was no category of "high performance" for textiles. Since that time we have built a framework of creative design and improved sustainability onto the performance foundation of the product.

Many companies have tried to emulate the unique look of Xorel over the past 3+ decades. While we are flattered, we are not impressed. What these companies fail to realize is that Xorel is not a "look", it is a commitment to design, performance and sustainability that speaks to the nature of our company.

INTRODUCING BIOBASED XOREL

After 7 years of development Carnegie launched the worlds first biobased high performance interior textile. Instead of using fossil fuels, Biobased Xorel is derived from the sugar cane plant. In fact the renewable plant content ranges from 60-85%; in itself a remarkable achievement.

The sugar cane plant is an energy powerhouse creating 9.4 units of renewable energy for every 1 unit of fossil fuel. In addition for each ton of the plant grown, 2.5 tons of CO2 is captured and sequestered; a carbon positive event.

Biobased Xorel is completely third party certified earning Cradle to Cradle Gold Certification and FACTS Gold certification. In addition multiple LEED points can be earned. The launch of Biobased Xorel is an industry first. Yet it was a natural step for Carnegie, a company imbued with a nature of curiosity, creativity and persistence.

WHY XOREL

Xorel has been meeting the challenge of the world's most demanding environments for more than 30 years.

Its combination of beauty, function and sustainability has earned the praise and confidence of architects, designers and building owners around the globe.

Xorel is a woven polyethylene textile built on the strength of its core yarn; it delivers remarkable durability and ease of maintenance without any added coatings or finishes. From hotels to healthcare, offices to schools and beyond; Xorel is the gold standard of high performance interior textiles.

Xorel is Third party certified, lab tested and installation proven assuring every client the highest performing, safest and most environmentally responsible, textile on the market. The one and only Xorel by Carnegie brand is backed by the unmatched service and integrity of the company that created it.

DURABLE

From 200,000 to 1 million double rubs wyzenbeek

ANTIBACTERIAL

Inherently antibacterial, fungal & staph

END OF LIFE

Safely disposable
Responsible return program

EASILY CLEANED

Can be aggressively cleaned on the wall
Water, solvent and diluted bleach cleanable
X Protect backing technology

NO FINISHES

Clean production
No topical finishes or chemical finishes

LAB TESTED

60+ performance and safety tests

COLORFAST

A solution dyed product
Impervious to many stains

3RD PARTY CERTIFIED

Cradle-to-cradle MBDC Silver & Gold
SCS Indoor Air quality Gold
Vinçotte OK biobased
facts Certified Silver & Gold
USDA BioPreferred

APPROVED

Green Spec listed
Approval under Collaborative
for High Performance Schools
LBC & HPD complaint

PROTECTED

7-year warranty
