POWERBOND® + MODULAR

Unpredictable
structure.

JHANE BARNES

 **Tarkett**

A recipe for good design.

With mathematical formulas as her guide, designer Jhane Barnes has mastered the art of making structured patterns appear random and unpredictable. She calls these formulas her recipes. (Without writing them down, she'd never be able to bake the same pattern twice.) The Blockade formula was introduced years ago as a shirt in her menswear collection, an exclusive for Neiman Marcus. Thankfully, her recipe led her back to this playful geometric—and its seemingly random color placements. When installed as Powerbond, Blockade requires no matching at the seams, for faster installation and minimal waste.

Design collaboration

Designer Jhane Barnes' 38-year fashion career saw her menswear label grace the shelves of stores like Neiman Marcus, Saks, and Nordstrom. She didn't stop there! Jhane designed textiles for Knoll for 14 years, furniture for Bernhardt for 10 years, and carpet for Tarkett, now 20 years and counting. Her innovative carpet tile and Powerbond products for Tarkett have been revolutionary. Using a blend of art and science—and her custom developed software—Jhane creates patterns from algorithms, incorporating mathematics into many of the products she designs.

ethos[®] modular with omnicoat technology[™]

Don't lose time and money on challenging substrate issues—ethos[®] Modular with Omnicoat Technology[™] eliminates installation problems before they happen. Its breakthrough, proprietary coating creates a chemical barrier that works on any adverse flooring substrate—from green and chemically abated concrete to old adhesives. And as long as there's no evidence of standing liquids or moisture staining, ethos eliminates the need for moisture, pH and MVER testing when installed with TarkettTAPETM.

Doing Good. Together.

At Tarkett North America, we believe that together, we can make a positive impact on people and the planet. That's why we're Doing Good—Together, connecting our sustainability efforts with what our customers value and our world needs. It's an active, living commitment to create a future where people and the planet prosper in balance. Where sustainable flooring solutions don't just perform. They inspire.

Blockade and Soundblock include Tarkett's new Eco-Ensure™ soil protection technology, a fluorine-free chemistry based on a mixture of common organic elements found in the natural environment: carbon, hydrogen, oxygen, sodium, sulfur and nitrogen. Eco-Ensure has received the Cradle to Cradle® Product Innovation Institute's Platinum Level Material Health Certificate, and is now used on all Tarkett-branded soft surface products.

DESIGNING FOR LIFE

Developing products based on *Cradle to Cradle*® principles that contribute to people friendly spaces AND respect the planet's natural capital.

CLOSING THE LOOP

Building a circular economy inclusive of programs and business models that encourage take back, reuse, recycling and elimination of waste.

DRIVING COLLABORATION

Inviting others to join us in Doing Good through education, collaboration, transparency and communication.
