Playful patterns

Offset is a non-directional, organic pattern that comes and goes with an almost pixelated effect, giving the impression of a transferred design. Balance builds on this idea by adding a random stitch detail to provide more direction and a playful accent.

Suzanne Tick is the founder of Suzanne Tick Inc., specializing in materials brand strategy, product design, development, and direction for commercial interiors. Her designs, across product platforms, have won numerous design awards and continue to break new ground in the industry. In addition to her work in commercial interiors, Suzanne maintains a hand weaving practice and creates woven sculptures from repurposed materials. Her work is exhibited worldwide, including MoMA and Art Basel, as well as collected by private and corporate clients.

Inspired by the unfinished and exposed raw materials used for industrial printing techniques, Offset and Balance create a casual sophistication that doesn't feel heavily designed. Both styles create the illusion of having a fuller texture, and provide outstanding performance with permanent stain resistant properties. With an agile approach to design and the convenience of Quickship, these two styles work together to bring industrial resourcefulness to any project.

Doing Good. Together.

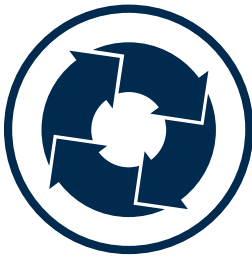

At Tarkett North America, we believe that together, we can make a positive impact on people and the planet. That’s why we’re Doing Good—Together, connecting our sustainability efforts with what our customers value and our world needs. It’s an active, living commitment to create a future where people and the planet prosper in balance. Where sustainable flooring solutions don’t just perform, they inspire.

Offset and Balance are available on ethos® Modular with Omnicoat Technology™, a Living Product Challenge Imperative certified backing made with PVB film from recycled windshields. The two styles also include Eco-Ensure™ soil protection technology, a fluorine-free chemistry that is *Cradle to Cradle*® Gold Material Health certified.

DESIGNING FOR LIFE

Developing products based on *Cradle to Cradle*® principles that contribute to people friendly spaces AND respect the planet’s natural capital.

CLOSING THE LOOP

Building a circular economy inclusive of programs and business models that encourage take back, reuse, recycling and elimination of waste.

DRIVING COLLABORATION

Inviting others to join us in Doing Good through education, collaboration, transparency and communication.

CONSTRUCTION OPTIONS

Through our ReStart® program, we ensure 100% of the flooring and samples returned are recycled or reused, guaranteed.
