Antiqued Mallorca

Terracotta

The Mallorcan fabric designs were crafted by Spanish weavers and perfected by French artisans since the mid 1800's known as "Lenguas Mallorquinas". Our Antique Mallorca Terracotta Collection is an artistic interpretation of these designs.

Antiqued Mallorca delivers six patterns exquisitely rendered in a sun drenched palette of indigo wash and vintage linen on our own 6"x6" terracotta tiles.

This collection is perfect for those who love the beauty of classical decoration and for those who like exploring the endless boundaries of timeless opulence.

Our Antique Mallorca tiles are suitable for interior vertical dry area use exclusively and pair beautifully with our vast stone and terracotta offerings.

Delft Ceramic

Delft tile tradition dates back centuries from their original advent in the Netherlands. Today, as blue and white decor is once again among the top trending concepts in all of home furnishings, we are pleased to present this re-imagined collection that uses a combination of ancient and modern techniques to create the look of Delft tile in a more transitional, lighter, brighter mood. Beyond blue and white, some designs are wrought in polychrome glazes that offer both versatility and artfulness. The tiles are suitable for all vertical interior applications.

Marsala Bianco

Ceramic

Marsala Bianco is for those who love traditional patterning but prefer to use it in an updated, more subtle fashion. Taking inspiration from a 19th and 20th Century Sicilian artistic genre, Marsala Bianco pays homage to the lively, unique, globally inspired pattern mix found in Sicily, with six decorative designs named after villages there. The feel of this tile is understated, with a mix of warm and cool neutral tones on white, so it fits with any décor. With whispered architectural undertones taken from the Roman, Arabic and Greek influences that are so much a part of history of Sicily, Marsala Bianco brings timeless beauty to interiors.

Completing the line, a beautiful white field tile and choice of complementary trims makes Marsala Bianco simple to use. It is suitable for interior vertical applications including wet areas.

Zanzibar

Ceramic

Paying homage to a beautiful tradition of block printed textile patterns, the Zanzibar ceramic wall tile collection combines a subtle matte finish with washed hues inspired by the sun drenched beaches along the coast of the Indian Ocean, and by the indigo, henna and natural botanical dyes used in textile hand craft. These nine patterns are offered in a subtle matte finish, reflecting the soft, natural cotton hand of the textiles that inspired them.

The colors reflect the cool coastal tones of Zanzibar, an island city off the coast of Tanzania in the Indian Ocean. The tile backgrounds reflect the bright white light that bathes the seaside, breezy and cool. Patterns are suffused with watery surf, cool pebble and warm sand colors, with a delicate hint of a rosy island sunset here and there. They are suitable for all interior vertical and horizontal applications.

Full Grain

Marble - Limestone

In ancient times, artisans would treat natural stone by repeatedly hitting it with a tree branch or shrubbery switches. This process offered up a richly textured finish in which the softer minerals would wear away slightly deeper than the hard ones, creating nuanced light and shadow. In this way the stone's "grain" was visually and tactilely enhanced.

Today, our stone artisans use modern techniques of texturing the natural stone surface to achieve the same elegant result. Offered in 16-inch square tiles in a choice of three marbles and one limestone, Full Grain is suitable for vertical and horizontal interior applications.

La Roche

Limestone

Have you ever noticed that where some of the best stone comes from is often where some of the finest foods and wines come from? It's true, and it is no coincidence. The stones themselves are part of the reason your gourmet treats are so tasty. The beautiful French limestone that you may wish to adorn your kitchen is very same that lends the perfect environment for the art and science of "affinage" or cave-aging of great cheeses.

The French limestone you may want cladding your wine cellar is composed of the very minerals that contribute to giving Bordeaux and Burgundies and even Champagnes their signature natural flavors or "terroir". The La Roche collection is composed of limestones from cooler to warmer and darker to lighter hues, in a variety of finishes and shapes. All have a nuanced and sophisticated beauty, ready to be savored. Suitable for vertical or horizontal interior applications.

Talya

Waterjet

The Talya Collection by Sara Baldwin Design exclusively for Marble Systems is influenced by the extraordinary decorative achievements of the Ottoman Empire. Talya references centuries-old traditional motifs with an updated voice.

American designer Sara Baldwin was inspired to create this line by her travels to Turkey and the Middle East and Talya is crafted from some of the most elegant natural stones from that part of the world. Like the antiquities that inspired it, Talya is destined to bring timeless beauty to today's interiors. Suitable for all vertical and horizontal interior applications.
