SKORD LOOKBOOK

The Audrey Lane Skord collection consists of bold, graphic patterns meant to create bespoke interior floor and wall spaces.

Our tile palette consists of marble, stone, and solid colors each uniquely etched with waterjet technology resulting in patterns that evoke a high design aesthetic.

Unlike typical waterjet designs consisting of multiple materials, the Skord collection masterfully utilizes etched lines creating a unique solution somewhere between classic and modern. The etched patterns are brought to life by the designer's choice of joint color.

Skord ultimately offers the simplicity of porcelain in a wide spectrum of bold and neutral shades with dramatic patterns resulting in the delightful play of harmonies and contrasts.
