HIGH PRESSURE LAMINATE

GRANITE COLLECTION

The HPL difference.

DESIGN

Inspired by nature, Wilsonart® HPL presents unique and versatile designs that can transform a home with style and beauty. HPL is available in a wide variety of designs, colors, and finishes, offering homeowners the creative flexibility to craft a personal, lasting style.

CONSISTENCY

Engineered surfaces offer precision and consistency, regardless of a project's design or complexity. You'll know precisely the surface you're receiving, time and again. Wilsonart® HPL provides an extensive range of options that work in concert, creating a look that is predictably beautiful and consistent with your home's aesthetic.

SIMPLICITY

Creating your dream home with Wilsonart is simple. Our surfaces are easy to order. Effortless to install. And, since Wilsonart® HPL has short lead times and low-to-no minimums, delivery is always on time and on budget. We strive to keep your project moving in one direction: forward.

BETTER THAN GRANITE

Granite HPL outperforms traditional granite in cleanability, stain resistance, scratch resistance, scuff resistance, and impact, making it the ideal surface for durability and aesthetic. And unlike its fragile, porous competitor, Granite HPL is sustainable, requires minimal care, and is easy to wipe clean and disinfect.

STAIN AND SCRATCH

Live and move in your space without worry. Granite HPL eliminates common threats with built-in stain and scratch resistance that provides peace of mind and lasting beauty. And when life's usual mishaps do occur, Granite HPL is simple to clean and disinfect. It's consistently durable, easy to maintain, and always prepared for the unpredictable.

PERFORMANCE

Wilsonart® Engineered Surfaces are durably crafted for the unpredictability of everyday life. Plus, Wilsonart® HD® and Premium HPL feature AEON™ Enhanced Scratch & Scuff-Resistant Performance Technology, outperforming competitive HPL by a factor of up to 3-5x the industry standard for increased wear resistance and improved scratch, scuff, and mar performance. We take pride in building surfaces that look newer and maintain performance, long after installation.

ANTIMICROBIAL PROTECTION

Built-in protection from the hidden microscopic dangers all around us. With silver ion technology locked in, our surfaces help inhibit the growth of stain and odor-causing bacteria, mold, and mildew.
