WOOD COLLECTION

The HPL difference.

DESIGN

Inspired by nature, our unique and versatile designs are crafted to provide homeowners the choices and combinations to create any style. Any look. And always an extraordinary result. Wilsonart® HPL comes in a wide variety of beautiful, high-end designs that offer creative flexibility through wide color choices and enhanced finishes.

CONSISTENCY

Another advantage of engineered surfaces is that you know exactly what you'll get, each and every time. No matter the design and complexity, Wilsonart® HPL provides exceptional choices that not only work in concert, but they will always match, providing consistent aesthetics.

SIMPLICITY

We make crafting a home with Wilsonart simple. Easy to order. Simple to install. And, since Wilsonart® HPL has short lead times and low-to-no minimums, delivery is always on time and on budget. Keeping your project moving in one direction: forward.

BETTER THAN WOOD

Wood HPL outperforms normal wood countertops. Stands up to everyday elements. Retains its authentic look and feel. Requires minimal care and maintenance that's easy to wipe clean and disinfect. Consistently durable, our wood collection is made to bring your vision to life beautifully, durably, and sustainably.

STAIN AND SCRATCH

Live and move in your space without worry. Wood HPL eliminates the constant threat that stains and scratches pose to normal wood. Stain and scratch resistance is built in, so spills and other mishaps are no match for this surface. With Wood HPL, you're always prepared for the unpredictable.

PERFORMANCE

Our engineered surfaces are made for everyday life. Reliably durable. Scratch-resistant. Stain- and wear-resistant. They are a favorite choice among architects, designers, fabricators, and consumers. Plus, Wilsonart® HD® and Premium HPL feature AEON™ Enhanced Scratch & Scuff-Resistant Performance Technology, outperforming wood veneers by a factor of up to 24x wear-, 20x impact-, 4x scuff-, and better fade-resistance. All for surfaces that look newer and perform better, longer.

ANTIMICROBIAL PROTECTION

Built-in protection from the hidden microscopic dangers all around us. With silver ion technology locked in, our surfaces help inhibit the growth of stain and odor-causing bacteria, mold, and mildew.

FAWN CYPRESS 8208K-16

Inspired spaces. Right at home.

Wilsonart® HPL countertops are crafted to give you the best of all worlds. Design. Performance. Consistency. Simplicity. When a home is created with the imagination of Wilsonart® Home, it becomes equal parts beautiful, practical, and extraordinary. It's a space of your dreams, made for the real world.

CLASSIC WOODS

Classic Woods translate a typical joining of flitches across the sheet and create a familiar look to the graining structure of the woodgrain décor. This group consists of familiar wood species that are commonly available.

Nature provides inspiration.
We create perfection.

With a look and texture that feels authentic, our Wood Collection encompasses all that nature provides, with the durability and life-resistance that our engineered surfaces provide. All created in a sustainable, simple, and consistent fashion.

PLANKED WOODS

Planked Woods are comprised of “pieces” of wood planks that can run the full length of the sheet, or be cut into smaller lengths and “blocked” throughout the sheet. Varied sizes of planking and blocking may be found in this collection, ranging from casual to modern styles.

Designed for life.
Beautifully durable.

HPL provides beauty with performance to stand up to everyday use: cooking, spilling, eating, working, and playing. With constantly changing styles, our Wood Collection remains classic, offering a wide variety of tones and textures to match any aesthetic and transform kitchen countertops, island countertops, open wood shelving, and vanity tops.

ALIGNED OAK WOODS

Aligned Oak Woods combine texture that follows, or aligns to, the printed woodgrain décor, creating a more realistic wood look.

Highly treasured.
Sustainably engineered.

Our exotic woods collection meets the growing demand for precious, endangered woods with an innovative alternative: sustainable engineered HPL. A smart and striking choice, these designs combine detailed graining and rich coloration with everyday functionality.

EXOTIC WOODS

Exotic Woods are wood species that have a special or unique characteristic due to their origin, climate, and limited availability. All Exotic concepts are safely harvested and used in a sustainable manner.

WHITE DRIFTWOOD 8200K-16

Unrefined perfection. Timeless appeal.

The enduring beauty of aged wood is undeniable, and its weathered, unrefined perfection is encapsulated in our distressed and antique woods. These authentic designs bring warmth, timeless appeal, and unbelievable durability to every space.

DISTRESSED / ARTISAN WOODS

Distressed/Artisan Woods have time-worn or weathered features due to the wood’s exposure to the earth’s elements. Artisan Woods are the result of varied finishing processes that create special colors or effects on the woodgrain, and can include antiquing, cerusing, or staining in a crafted manner.

WOOD COLLECTION

Countertop edge profile options.

With Wilsonart® Decorative Edges, one small detail can define an entire space. With multiple options available, you can complement any style and any look. So feel free to explore. Reach the next level. And get the edge.

FAWN CYPRESS 8208K-16

CLASSIC WOODS

BULLNOSE EDGE

This classic, popular edge creates a simple yet timeless look. The roundness of the bullnose edge is ideal for traditionally styled spaces.

STICKLEY OAK 17003K-57

ALIGNED OAK WOODS

PENCIL EDGE

Strong, crisp angles enhance the solid stone aesthetic with a classic look and feel. The tight full wrap edge creates the authentic look of stone. The decorative surface is wrapped around both the top and bottom, providing protection for the underside of the countertop.

OLD MILL OAK 7973K-12

PLANKED WOODS

CRESCENT EDGE

This versatile edge blends into nearly any kitchen design. The perfect finishing touch that adds depth and sophistication to any space.

ANTIQUE MARULA PINE 8216K-28

PLANKED WOODS

WATERFALL EDGE

A waterfall edge pairs a flowing waterfall roll with a straight-edged base for a look that is inspired by the flowing lines of nature.
