BIOPHILIC DESIGN & THE BENEFITS OF NATURE

Biophilia focuses on human's innate attraction to nature and natural processes. Biophilic design is the strategic approach to tap into—and harness nature in built environments.

Having elements of biophilic design in a space is proven to:

- Reduces stress levels
- Lower blood pressure levels
- Reduce fatigue
- Increase mood and feeling of well-being
- Helps aid in mental restoration
- Increase productivity
- Increase creativity

TYPES OF SERVICES OFFERED

1

PRESERVED MOSS WALLS

Our greatest focus - utilizes preserved organic mosses that do not require any maintenance. No watering or misting!

2

LIVING WALLS

Composed of real plants that require routine maintenance to help keep them alive and to thrive.

3

ARTIFICIAL GREEN WALLS

Completely made of realistic faux plants. Requires no maintenance, but creates the illusion of a living wall.

4

MIXED GREEN WALLS

Integrates faux plants, as well as preserved plants or mosses.

5

PLANTSCAPES

Fills the space with faux trees and other greenery that act as their own statement pieces.

6

CORK BARK

One of our newest product lines - incorporates bark mounted on a cork backing that can be displayed on its own or with moss and other natural materials.

7

CUSTOMIZABLE CORK WALLS

Using GENCORK's sustainably produced cork, we can design and install a sculpted cork wall to fit any style.

PRESERVED

Create a work of art with moss that requires no maintenance!

LIVING WALLS

Bring life to your interior with a full plant wall.

Planthropy offers maintenance plans to keep your walls looking beautiful and healthy!

ARTIFICIAL WALLS

Create the illusion of a living wall with realistic, vibrant faux plants.

MIXED GREEN WALLS

(FAUX + MOSS / PRESERVED PLANTS)

Brings faux and preserved materials together to create something truly unique!

PLANTSCAPES

Create a small interior forest with our realistic trees - the perfect accent for any office, lounge, or living space.

CORK BARK

Durable, elegant and the perfect natural element to enhance any space!

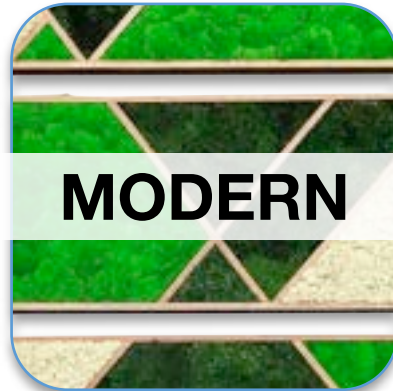

CUSTOM CORK WALLS

*Using GENCORK's 3D cork material;
any design can be created to make a
dramatic statement and lasting
impression in your space.*

MOSS WALL DESIGN STYLES

These categories are not mutually exclusive to one another. We only show them as options to guide your creative direction.

MOSS WALL SPECIFICS

Planthropy moss walls are fully customizable to suit your individual taste. Bring the outdoors in and watch your space come to life! All materials are carefully selected, safe for the space and require ZERO care. They do not require water, sunlight or chemicals and they do not attract insects. Since they are preserved, they also do not produce pollen or spores. We use preserved moss, ferns, folia, drift wood, mushrooms, bark and a variety of other natural elements based on each custom project. Naturally preserved moss and plants maintain their soft textures, intricate natural details and vibrant colors. Each moss wall is handcrafted and is one-of-a-kind plant art.

Moss Information at a glance:

- No maintenance needed; no water or light requirements
- Will not grow
- Will remain soft and lush
- May become dry under 30% humidity (only noticeable to the touch)
- May absorb too much moisture if above 75% relative humidity
- Will not produce pollen or spores
- May need occasional dusting
- May have an earthy scent which is not permanent
- Is only for indoor application
- Direct sunlight should be avoided

For inspiration + ideas, the following examples are broken down into product & design categories to help you identify what direction you like best.

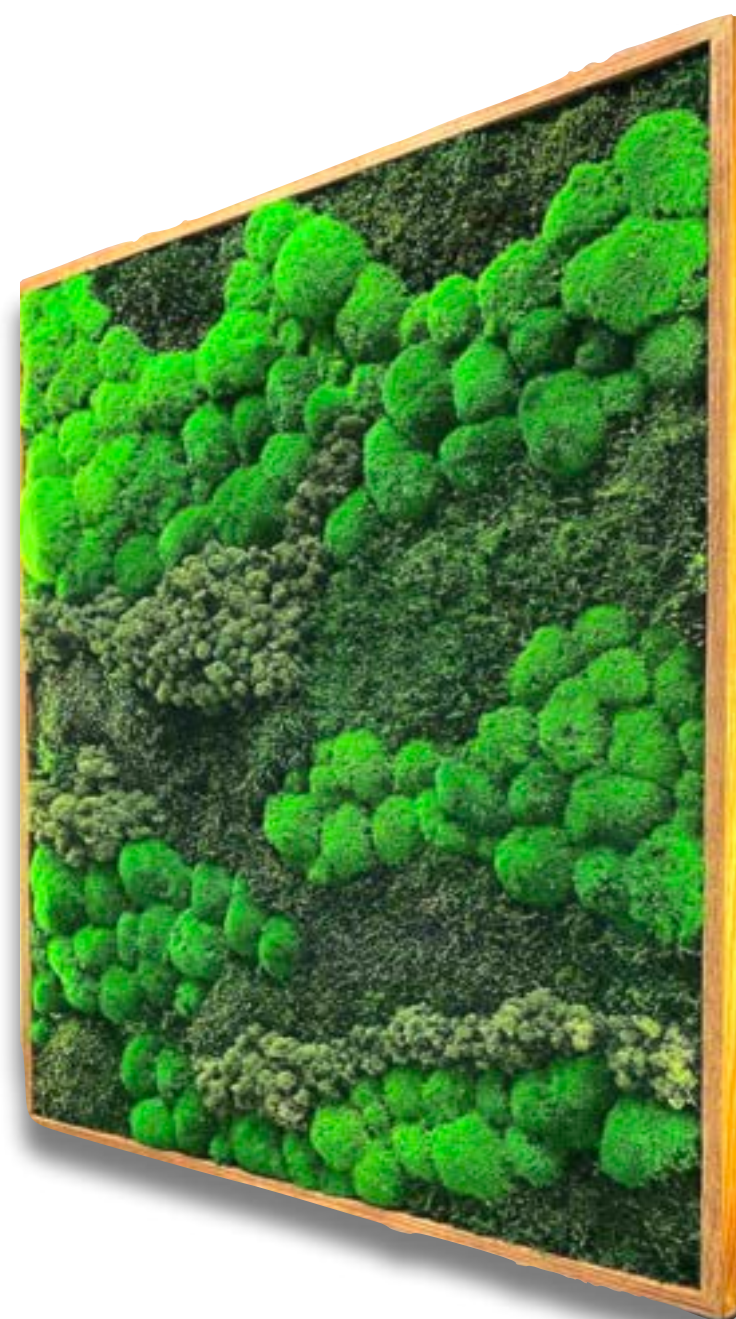

1 SINGLE

Our single type moss walls are impactful and timeless. These one color walls are a great way to brighten up any space.

2 ORGANIC

Just how nature intended. Organic moss walls have varying moss types, clusters and mimic the natural world, appearing to be designed by Mother Nature herself! .

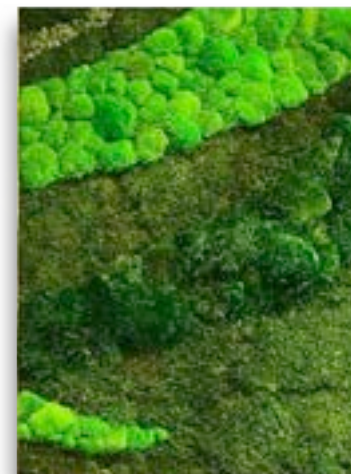

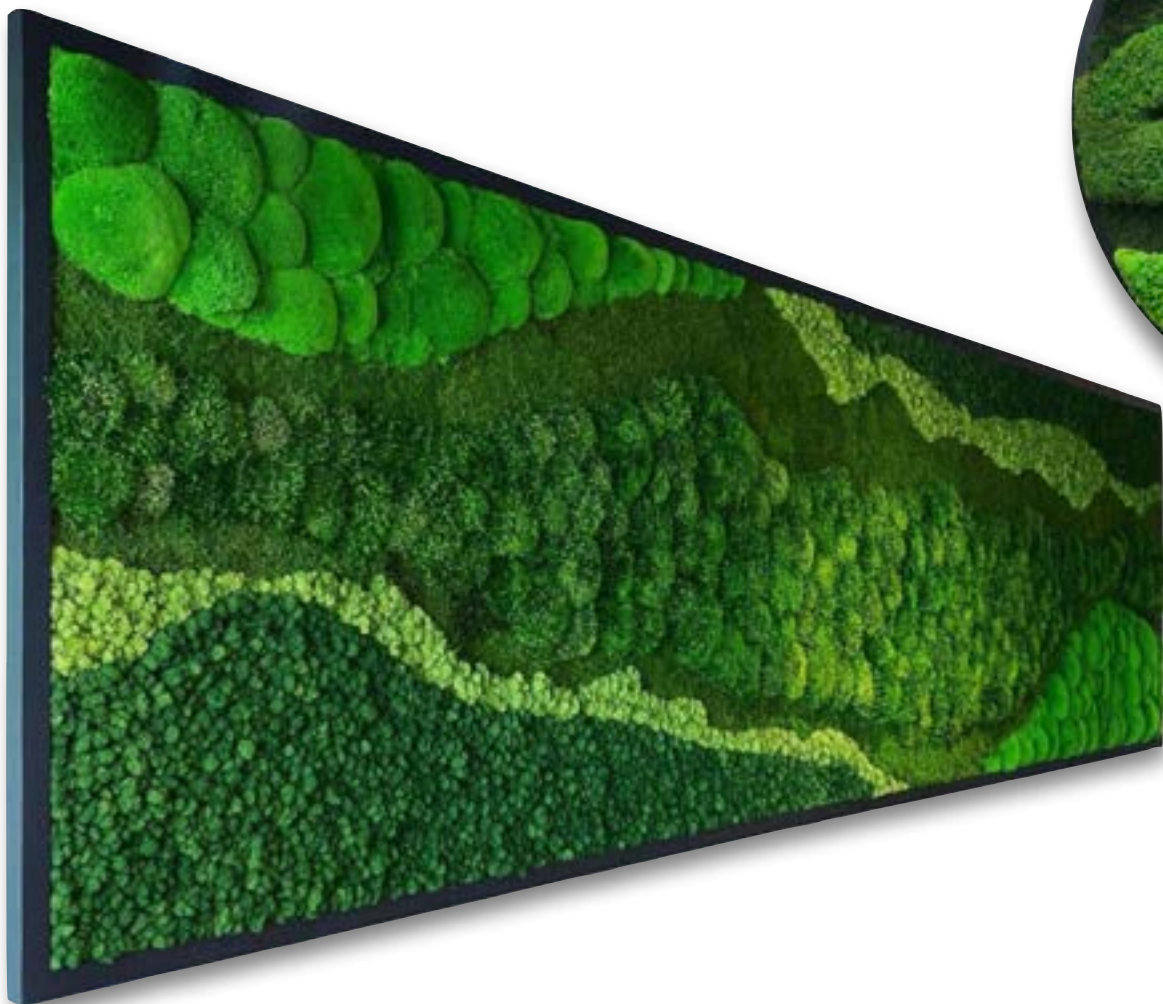

3 MODERN

Modern Nature; a balanced mix of moss where sleek, modern design meets nature.

4 MOVEMENT

With the use of different mosses and elongated forms, natural movement can be created for an organic, natural, yet clean look.

5 ELEMENTAL

Preserved folia such as fern leaves are a great way to recreate the forest. Preserved leaves, mushrooms, bark, driftwood and other earthy elements can all be added to your wall for an extra biophilic aesthetic.

6 PATTERN

Patterns and precise line work can be created to give a moss wall a very clean and unique look.

7 ARTISTIC

Looking to create a completely far out idea? Our team of designers can come up with the perfect design to best fit the “personality” of your space.

7 ARTISTIC

Looking to create a completely far out idea? Our team of designers can come up with the perfect design to best fit the “personality” of your space.

8 LETTERING

Make an impactful look that is great against any surface. Textures of the vibrant moss can flow through each letter / word.

9 SINGAGE

Inviting, invigorating and bold. Our team will find the best solution to incorporate acrylic, LED, brushed aluminum, wood, and also moss.

10 OVERHEAD PLANTSCAPES

Look..Up in the sky! It's plants! Our overhead installations are captivating and other-worldly. Products can vary in sizes, length, form, and material.

11 INLAY

Our CNC moss inlay technique takes the moss design to the next level! Laser cut design in wood (or other medium) is then inlaid with moss.

12

SOMETHING NEVER BEEN DONE BEFORE

Have an idea that goes beyond these options? Let's talk and figure out how to make your vision a reality.

MOSS DIAGRAM

POLE MOSS

Tight, thick and dimensional “rolling” clusters. Available in an assortment of green colors and natural white.

MOOD MOSS

Thick, soft, dimensional and dramatic. Comes in clusters.

REINDEER MOSS

Sponge-like, textured, and soft. Available in every color.

SHEET MOSS

Soft, tight textured, even dark green color, low profile.

EDGE + FRAME OPTIONS

We offer many options when it comes to selecting a frame for your project. We can use metal, wood, live edge, and explore ways to get the perfect final look using various dimensions and thicknesses.

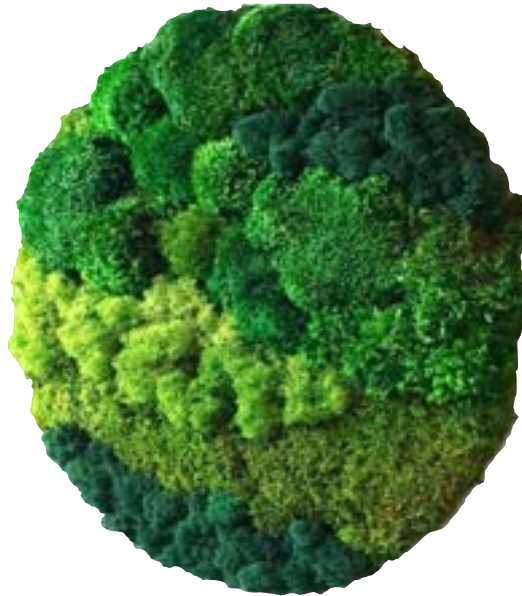

THIN METAL FRAME

Can be raw metal or painted any color of your choice.

RAW METAL FRAME

Can be raw metal or painted any color of your choice.

LIVE EDGE

Our live edge moss option means the moss covers the sides of the piece and is manicured to have nice edges. This is a more organic look.

WOOD FRAME

Our wood frames can be painted or stained any color of your choice.

MOSS INLAID IN WOOD

Moss can be inlaid in wood or metal shapes, creating a unique piece of art.

WOOD STAIN OPTIONS

Select from a variety of stain options. (Our most popular are Early American 230 and Special Walnut 224.) Please keep in mind stain colors will vary based on wood selection.

★ We also offer painted frames, with unlimited color options
