technical summary

dcof (ansi b101.3)	flekk: 0.60 | terrazzo 0.62
compressive	>8000psi
ibc flame spread	rating a (0-25ft/hr.)
freeze thaw	meets standards astm c936/c1645
weight (lb/sq.ft)	3/4'' = 10 2'' = 25
colorfastness	uv stable
max standard size	up to 32" x 32" (813mm x 813mm)
curvature tolerance	± 0.5 percent of max tile length
thickness tolerance	will vary, not a fully gauged product
overage	allow ample (suggested 20%)
tonal variation	variations expected (blend like stone)

installation

mock up	required; grouted, scrubbed and sealed
system	mortar, sand or pedestal with standard masonry practices
grout joint	0.5% long edge of tile / minimum 1/8"
recommended sealer	drytreat stain-proof / quality impregnator

sri
