WELCOME TO INDUSTRY WEST

Bold design for modern living.

Industry West curates modern, artisan-crafted furniture and decor, with an emphasis on high-design. Our approach is guided by what we interpret as new classics—beautiful, functional pieces capable of becoming timeless. Founded in 2011, Industry West began as a search for the perfect dining chair and has since evolved into a vast array of furniture and decor.

It's simple, really. Our ethos around a positive, fulfilling experience shapes our ultimate goal of delivering what we all want with any purchase: to know that we've made the best decision possible. So for those looking to create refined yet approachable spaces, Industry West is here to provide a sophisticated range of quality, finely designed pieces that are hand-picked to keep up with modern life.

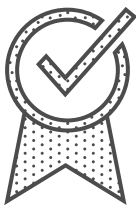

Enclosed are your swatches. If you have any questions or would like to start a new order, please don't hesitate to reach out to us at info@industrywest.com. For trade orders, please contact commercialorder@industrywest.com.

We believe fantastic design should be approachable, feel good, and make you happy to be where you are.

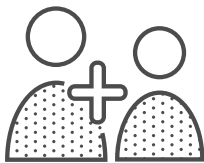

OUR GOAL

Our goal is to provide accessible luxury that feels as distinct and individual as each of the people enjoying it.

WHAT SETS US APART

What sets us apart is our deep respect for the customer experience and our comprehensive and unmatched warranty, which guarantees unparalleled coverage terms.

OUR DEDICATION TO YOU

The Industry West team is a passionate, dedicated group that thrives on helping designers, project managers, business owners and residential clients fulfill their design objectives.

LEATHER

Whether full grain or top grain, or from cowhide or water buffalo, leather is a timeless and versatile material that holds up well to use over time. Our leather furnishings are hand-colored and processed by skilled artisans around the world, ensuring a beautiful product that's always in style. While some types of leather may require more maintenance, imperfections and natural markings lend character as the material patinates over time.

UPHOLSTERY

The right fabric is a crucial element of a beautiful (and comfy) chair, stool or sofa. From velvet to linen and everything in between, our assortment of upholstered pieces offers natural and synthetic fabrics and blends in every color imaginable—

and because most of our furniture is commercial-grade, you can rest assured that your piece will hold up to the demands of everyday life. Prefer to use a different fabric option than what's offered? We can work with you to upholster a piece in a custom material.

STONE

As natural stone is a product of nature, veining patterns and intensity differ by type; the marks and imperfections in marble and other stones are what make each piece one-of-a-kind and valuable. Similarly, man-made materials like terrazzo are made in such a way to ensure that each piece is truly unique, and some variation is to be expected (and embraced).

WOOD

Nothing beats the warmth and beauty of thoughtfully finished wood furniture. Able to transcend design styles, solid or veneered wood chairs, stools, tables, and case goods can lend calming authenticity and practicality to each and every room in a home or commercial space. We partner with artisans across the globe to source and build furnishings from oak, ash, teak, and other varieties of wood that will stand up to wear, and take on a patina with age and proper maintenance.

PLASTIC

Durable, practical, and often stackable, our plastic furniture pieces are offered in boundless color options and feature unparalleled resiliency. Most of our plastic furniture is waterproof and UV-resistant, making it suitable for both indoor and outdoor use.

METALS

The go-to material for an effortless modern vibe, metal furniture is versatile and typically requires little maintenance. Most of our metal chairs and stools are available in a variety of color options or metal finishes, and can be found in countless restaurants and commercial settings across North America. Galvanized steel furnishings are covered in a protective coating that requires less maintenance and boosts the piece's lifespan—this is the only steel covered under our warranty for use outdoors.
