TIPS

TIPS (The Interlocal Purchasing System) is a national cooperative purchasing program. TIPS is available to public universities, colleges and schools, community colleges, city and county offices as well as any public or private "not for profit" organization. The TIPS contract is available for use at no charge to the user; users must register and become members of TIPS. All users must comply with their state's procurement laws and regulations.

TIPS provides users with discounted pricing reflecting users' combined purchasing power, as well as volume discounts and bid protection. TIPS contracts satisfy state competitive bidding requirements.

Procedures and Processes

TIPS awards its contracts based on quality, references and pricing. TIPS publicly issues and advertises its RFPs, opens sealed responses and evaluates them comprehensively before awards are made.

TIPS Advantages

TIPS has negotiated guaranteed prices with its vendors. It also provides:

- An easy way for buyers to submit orders by email to TIPSPO@tips-usa.com
- Staff to review orders for accuracy and readability
- Email confirmation of purchase orders and a link to print a letter of authorization

Eligible Participants

TIPS is available to technical schools, community colleges, four-year colleges and universities, K-12 schools and agencies, private schools, local and state governments and authorities, libraries, municipalities and other approved non-profits.
