VANTAGE COLLECTION

A Waterfront Vantage

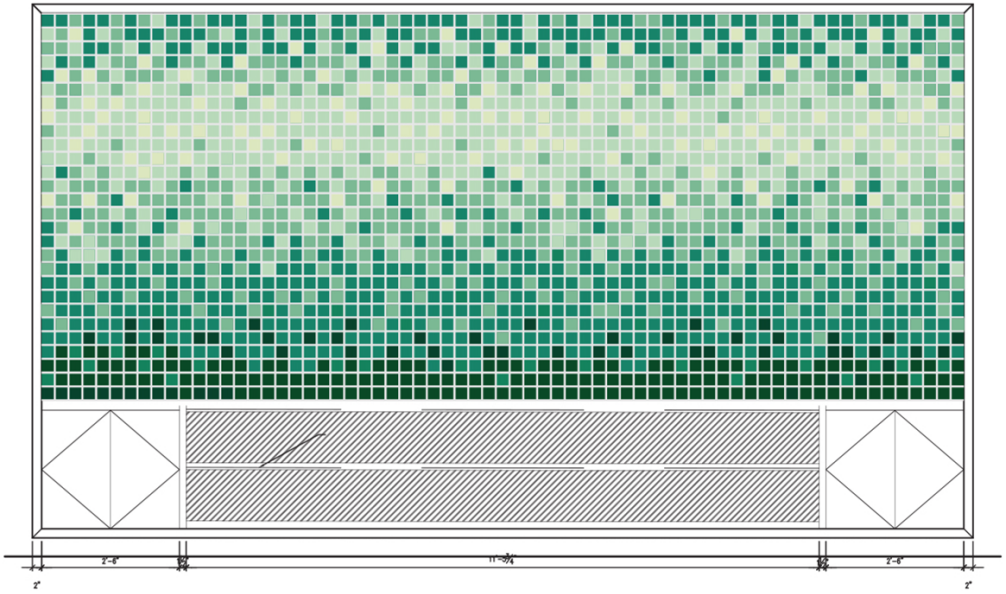

3”x3” Subway Tile / Custom Blend: 75 Emerald, 1017E Sea Mist, 1065 Mint Julep, 214 Coastal Breeze, 216 Sea Glass (Custom Color)

Project Size: 130 Square Feet
Location: Jersey City, NJ
Style: Luxury Living

Sitting on the waterfront of Jersey City, the Vantage apartments offer a luxurious oasis in the midst of a vibrant urban setting. That comes across the moment you walk in: Residents and visitors are greeted by the lobby’s gorgeous nature-inspired tiled mural.

GROUT - 88 SILVER SHADOW

Fogarty Finger Architecture wanted to evoke organic forms and the softness of the nearby waterfront of Liberty State Park. We worked with them to assemble the perfect ombre pattern of greens and blues to reflect the building’s waterfront views. As the designer described, “the mosaic feature wall echoes vibrant seafoam.”

This custom mosaic was mesh mounted on easy-to-install-sheets and sent off to Jersey City with an assembly map to ensure a smooth installation. 88 Silver Shadow grout was suggested to perfectly meld the palette into one centerpiece.

SPRINGBOARD FOR THE ARTS

Work Meets Playful

Reception Area: Geo-Hex Pattern / Custom Blend: 45W My Blue Heaven with accents of 1015E Caribbean Blue, 11 Deco White, 24 Dandelion, 21W Cobalt and 62 Lily Pad
Break Room Kitchenette: Medium Diamonds / Custom Blend: 11 Deco White, 77E Grey, 60 Silver Lining, 24 Dandelion, 32 Canton Jade, 29E Lake Superior

Project Size: 180 Square Feet
Location: St Paul, MN
Style: Playful Mid-Century Modern

Springboard for the Arts is a human-centered company with a mission to support artists using the tools to make a living and a life, building just and equitable communities full of meaning, joy, and connection. As artists ourselves, we're always seeking to cultivate meaningful relationships with other artists, so we were honored when Springboard approached us during their renovation & relocation in St. Paul, MN.

The Springboard team was keen on neutrals, light blues, soft greens and accents of warm yellows to match their existing branding. Since the entryway mural is the first thing visitors see, they wanted the palette to be fresh, friendly, and a bit playful. We went with our Geo-Hex Pattern in a custom color recipe made up of mainly light blue paired with accents of Spring inspired colors.

MERCURY MOSAICS TILE IS BEAUTIFUL HOWEVER, THEIR CLIENT SERVICES ARE WHAT REALLY MAKE THE WHOLE EXPERIENCE AMAZING... I HAVE WORKED WITH THEM ON TWO CUSTOM PROJECTS AND THEY ARE SIMPLY AMAZING PEOPLE WITH UNBELIEVABLE PRODUCTS.

– MARA P., DESIGNER

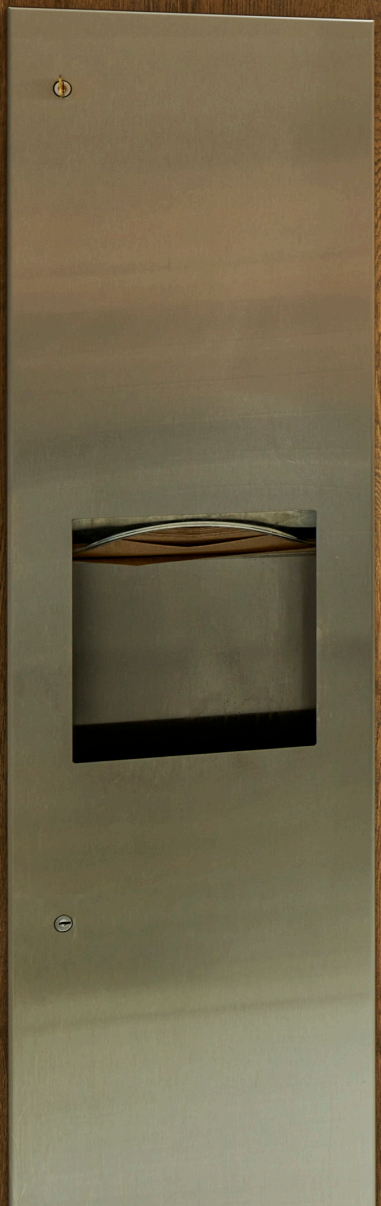

For their break room kitchenette, we expanded the color palette with an equal blend of 11 Deco White, 77E Grey, 60 Silver Lining, 24 Dandelion, 32 Canton Jade, 29E Lake Superior. That mixture coheres with the entryway colors while matching the accompanying cabinetry and countertops.

KOME JAPANESE SUSHI KITCHEN

Pairs Well with Sushi

Large Moroccan Fish Scales / Custom Blend: 60% Bright Blue, 40% Robin's Egg (Custom Color)

Project Size: 200 Square Feet
Location: Austin, TX
Style: Contemporary Japanese-Style Dining Space

Our Moroccan Fish Scale tile tends to wash up on the walls of seafood-centric eateries. In this case, Komé: Sushi Kitchen in Austin transformed a former pawn shop into a space that delicately balances traditional Japanese detail with contemporary sensibilities. The key to pulling it off? Craftsmanship.

We worked with the designers at Weiss Architecture to craft a blend of blue glazes that would integrate with the style of the space. This particular "Blend by You" started with a mixture of three glaze colors in their preferred ratios. After three rounds of design consultations and preview mock-ups, we simplified the pattern from three to two glaze colors arranged in a 60/40 ratio.

GREGORY'S COFFEE

Caffeine Chic

Paramus: Medium Diamonds / Custom Blend: 90% - 366 Satin Black, 613 Black, 10% - 155 Steel

Project Size: 225 Square Feet
Locations: New York

Manhattan-based Gregory's Coffee is a relative newcomer to the world of café chains, but their 30+ locations would tell you they're doing something right. Their success comes not only from the quality of the beans or the freshness of the pastries--it's their entire brand: warm and welcoming, inviting in passersby and turning them into loyal regulars, a.k.a. "Gregulars."

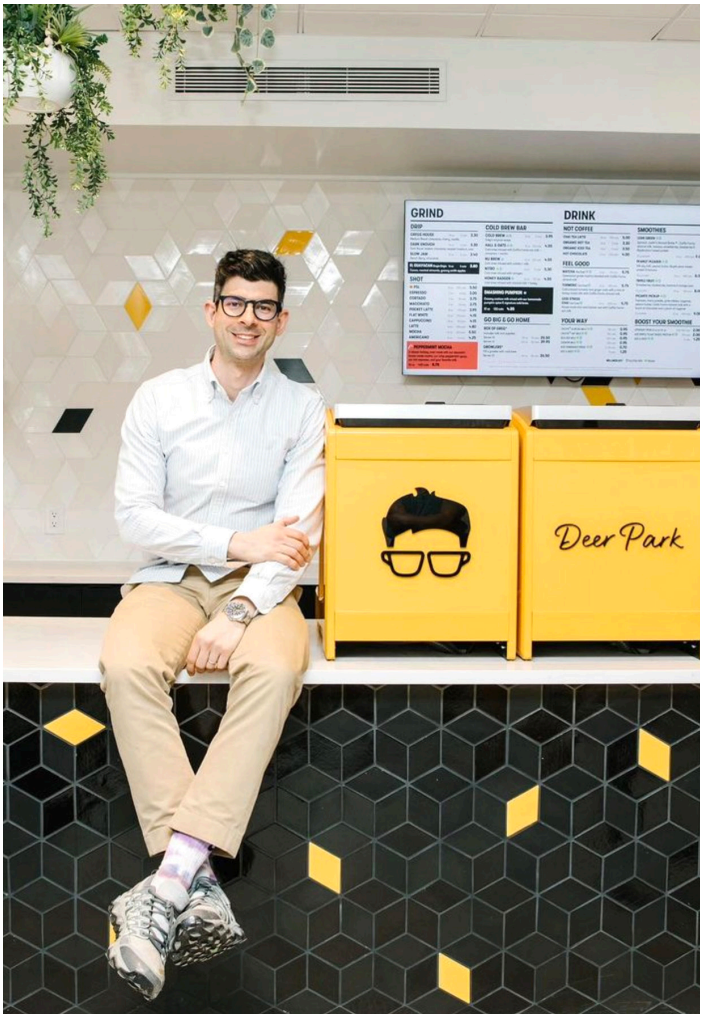

With a focus on health, lifestyle, and giving back to those in need, they've set themselves apart from America's coffee giants. And one part of that differentiator is our tile. Working one-on-one with Gregory himself, a custom blend of colors was dreamt up to infuse his iconic brand across the interiors. Not unlike their exacting approach to coffee, Gregory saw that our artisan tile was anything but regular, and it thus became the backdrop for a unique experience for their "Gregulars."

Health and Harmony

2”x6” Stacked / 1017E Sea Mist + Custom Mosaic:
613 Black, 23 Sapphire, 1015E Caribbean Blue, 1017E Sea Mist, 112 Saddle Clove (Custom Color), 372 Red Velvet (Custom Color)

Project Size: 150 Square Feet
Location: North Minneapolis MN

The “Alive and Well” custom tile mural was a true representation of our community. Our founder, mover, and shaker, Mercedes Austin, worked with visual artist Christopher Harrison to dream up a life-sized mural representing togetherness, health, and well-being in the North Minneapolis community.

The goal was to imbue the piece with a sense of movement. To achieve the result, we varied the shapes across the mural. We considered different sizes of tile, variation in the glaze colors, and overall depth of the contrasting hues to turn the artists’ vision into a living mosaic.
