SICIS GOLD

SICIS®
THE ART MOSAIC FACTORY

SICIS HA UN CUORE D'ORO

SICIS è sinonimo di lusso in ogni sua declinazione artistica, decorativa ed architettonica, e quale migliore alleato, nel mondo dell'eleganza e dell'opulenza più chic se non l'oro 24 carati?
Come un Re Mida dei tempi moderni, SICIS riveste con il suo manto fatato di oro le superfici di palazzi, tappeti magici ed arazzi super chic, opere d'arte e ovviamente, come un alchimista che sperimenta diverse tecniche e mezzi per i suoi fini, lo fa usando il mezzo che più gli è affine, il mosaico. Il mosaico in ogni sua declinazione, fino ad arrivare al nano-mosaico millimetrico filato d'oro o al mosaico minuto che coinvolge un altissimo grado di manualità e precisione da parte degli artisti ed artigiani ravennati, che scelgono, tagliano e posano interamente a mano ogni singola tessera e micro-tessera contribuendo a crare un manufatto capolavoro.
SICIS sfrutta l'oro anche nel suo uso per eccellenza: il gioiello. Magnifiche parure in micro-mosaico, arte così in voga nel diciannovesimo secolo, vengono proposte in chiave contemporanea come una nuova sfida di eleganza ed unicità.
All'oro è abbinato il platino, l'argento, lo scintillio dei vetri iridescenti e materiali preziosi che, accostati, creano splendidi oggetti, vere e proprie opere d'arte dal valore intrinseco altissimo.
Come l'oro, il più duttile e malleabile tra i metalli, SICIS dimostra la propria flessibilità spaziando da lontane ispirazioni bizantine a disegni ultramoderni in oro su oro, interpretato negli atelier ravennati grazie a tecniche all'avanguardia ed una produzione interamente italiana per la creazione di raffinate composizioni che mixano differenti tonalità gold che giocano su trasparenze o texture diverse per un effetto moderno e classico allo stesso tempo.
L'oro è divenuto nel tempo il simbolo di purezza, valore e lealtà... SICIS se ne fa portavoce e testimone con la sua preziosa, ammaliante, collezione Gold. Medaglia d'oro a SICIS.

SICIS, A HEART OF GOLD

SICIS is synonymous with luxury in all its artistic, decorative and architectural forms. What better ally, therefore, in the world of elegance and stylish opulence, than 24-carat gold?
Like a modern-day King Midas, SICIS lays its mantle of gold with magic carpets, ultrachic tapestries and stunning artwork. And of course, like an alchemist experimenting with different techniques and media, SICIS uses its medium of choice: the mosaic. This is used in all its forms, from wafer-thin nano-mosaics in gold to minute mosaics involving a high degree of dexterity and precision. The artists and craftsmen of Ravenna select, cut and set every single tesserae and micro-tesserae entirely by hand, thus contributing to create a true masterpiece.
SICIS also makes use of gold for more traditional uses, in the creation of jewels. Magnificent sets of jewelry in micro-mosaic, an art much in vogue in the nineteenth century, are given a modern twist of elegance and uniqueness. Gold is paired with platinum, silver, shimmering iridescent glass and precious materials that, combined, create beautiful objects, true works of art of inestimable intrinsic value.
Just like gold, the most malleable and ductile of metals, SICIS reveals its flexibility by encompassing a wide variety of styles, from Byzantine art to ultramodern gold-on-gold designs. These are interpreted in the ateliers of Ravenna with cutting-edge techniques and all-Italian production, to create sophisticated compositions that mix different shades of gold and play on transparencies and textures, for a modern yet classic effect.
Over time, gold has become the symbol of purity, value and loyalty, and SICIS serves as its rightful ambassador with its precious and enchanting Gold collection. A gold medal for SICIS.

The manufacturing of the mosaic is entirely made by hand and produced in Italy, according to strict artisan criteria.
Here below is a copy of the Certificate of authenticity and quality which will be mailed after the delivery of the artwork to the client who will request one.

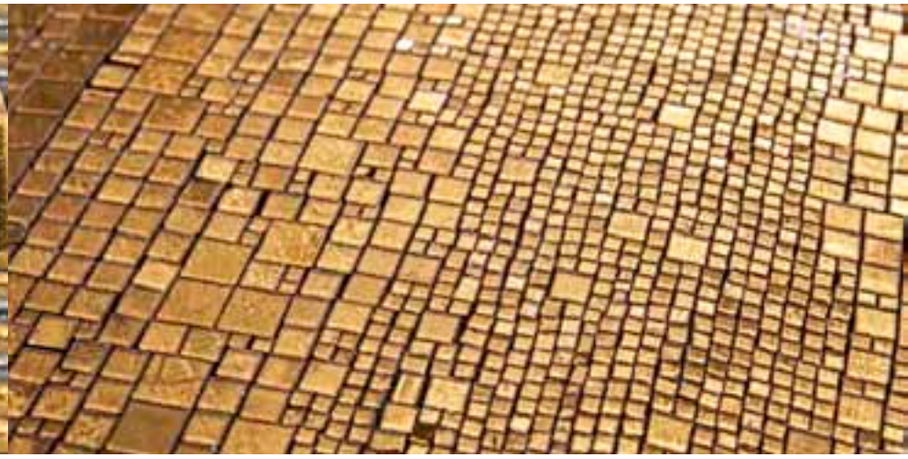

LA MATERIA

Ogni tessera è interamente realizzata negli atelier di Ravenna dove da sempre l'idea creativa e il progetto estetico di un nuovo prodotto danno conseguentemente vita a una fabbrica, un processo di lavorazione ed una tecnologia unica nel suo genere.
Ed è poi l'utilizzo di speciali tecniche brevettate di stesura del mosaico che rende alla vista la superficie morbida come tessuto, risultato di una capacità progettuale che non può prescindere dagli aspetti tecnico-produttivi, punto di partenza per l'unicità e la bellezza dei mosaici SICIS.

COLLEZIONI

SICIS crea collezioni innovative in grado di rispondere alle più svariate esigenze.
L'utilizzo di tecnologie d'avanguardia permette possibilità estetiche che spaziano in ogni direzione immaginabile.
Le tessere si uniscono in infinite combinazioni cromatiche e decorative utilizzando Ori di varie tonalità e disegnando i contorni dell'architettura e degli spazi del vivere contemporaneo.

MATERIAL

Each tesserae is made entirely in the Ravenna ateliers, where the creative idea and aesthetic design behind every new product give rise to a truly unique manufacturing process and technology.
The use of special patented techniques for setting the mosaic tesserae results in fluid surfaces that owe their fabric-soft appearance equally
to top-level design and technical-production aspects, serving as the starting point for the uniquely beautiful SICIS mosaics.

COLECTIONS

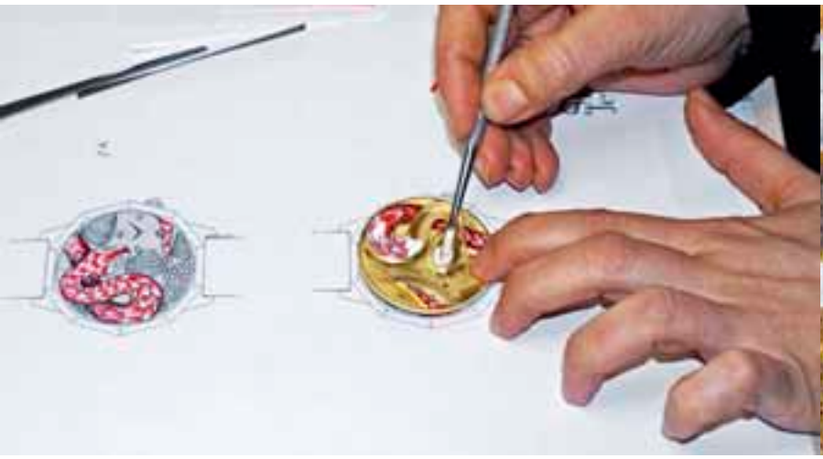

SICIS creates innovative collections that meet the most varied requirements.
The use of cutting-edge technology combined with centuries of artisan DNA enables the achievement of every possible aesthetic result.
The tesserae come together in endless combinations
of color and decoration, using various shades of gold and defining the architectural boundaries of contemporary living spaces.

ARTISTICO

La precisione del mosaicista, la profonda conoscenza dei materiali e l'irrinunciabile volontà di sperimentare, sono alla base del modus operandi di SICIS, che è conosciuta soprattutto per i suoi mosaici artistici. Ogni singola tessera viene scelta, tagliata e posata a mano da sapienti maestri d'arte musiva che creano capolavori negli atelier ravennati.

Investendo costantemente in ricerca e tecnologia è in grado di lavorare su ogni superficie, mobile o manufatto, per un prezioso tocco di custom-design che riveste lo spazio secondo uno stile unico.
