

ACOUSTIC SLAT WALL
AND CEILING PANELS

01

02

- 01 Natural Oak Acoustic Slat Wood Wall Panels
- 02 Natural Walnut Acoustic Slat Wood Wall Panels

A handcrafted solution from fully sustainable materials.

Our Slatpanel® slat wood wall panels have been carefully designed to seamlessly transform any space, enhancing the surroundings visually and acoustically. The wood panels help create an environment that is quiet and beautifully contemporary, soothing and relaxing.

The panels not only offer aesthetic refinement and superior acoustic dampening, but they are also produced using only environmentally

friendly materials. All materials are sourced and made from certified sustainable sources — a complete, environmentally friendly product.

Slatpanel® acoustic wood panels are ideal for all interior applications. Offering an eye-catching, easy to install, all in one panel solution. The panels also bring the added benefit of acoustic dampening qualities to any project.
