Laura Park Designs began as a line of brightly patterned pillows. Her whimsical brushstrokes have been transformed into a line of refreshingly colorful textiles and lifestyle products.

## ABOUT THE BRAND

All Laura Park signature patterns are created from Laura's original, vivid artwork. The original piece is photographed and transformed into a vibrant, digital pattern displaying the bold colors of her palette.

# ART TO TEXTILE

Laura Park Designs launched in 2016 after Park began photographing her art and creating digital patterns that could be transferred onto textiles. Creating pillows from her vibrant signature patterns, Laura launched her designs at the New York Now trade show and the brand took off. What began with pillows has now carried over into wallpaper, lifestyle accessories, tabletop décor and more!
