

REALISTIC STREAKING. REAL BEAUTY.

Trex Transcend® Lineage™, Trex Transcend® Tropicals and Trex Enhance® Naturals feature rich, multi-tonal streaking inspired by nature, resulting in subtle variety board-to-board. This means, no matter which color you choose, no two decks will look the same.

FOLLOW OUR TIPS TO CREATE A ONE-OF-A-KIND DESIGN

1

LAY THEM OUT

Arrange the deck boards on site before installing them to visualize the final look.

2

MATCH DARKS TO LIGHTS

Pay special attention to board-by-board color and streak variation. For an organic aesthetic, line up heavier streaks and darker tones next to lighter streaks and tones.

3

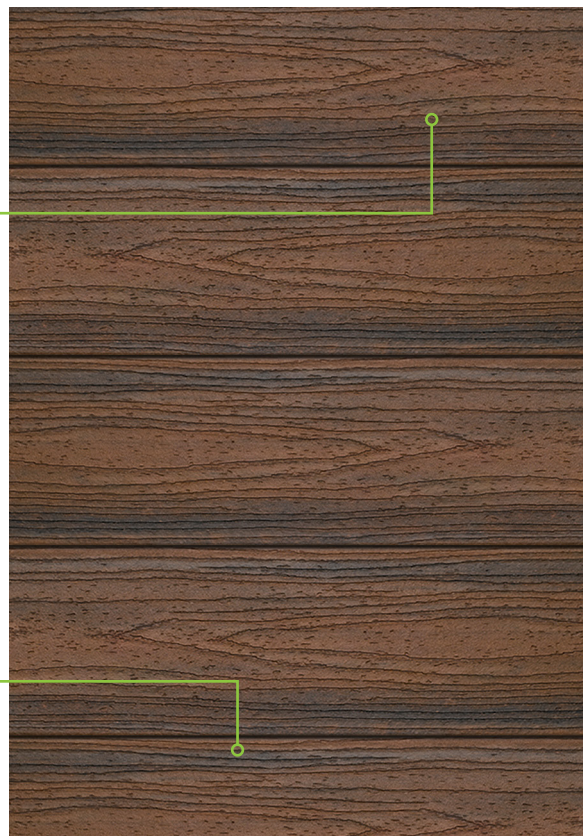

KNOW YOUR DESIGN OPTIONS

Maximize time and resources with a standard parallel deck pattern. Or for luxurious flair, consider a herringbone, chevron, parquet or picture frame design.

4

INSTALL WITH HIDDEN FASTENERS

To admire every tone to its fullest, install grooved-edge decking with Trex Hideaway® Hidden Fastening System for a clean, screw-free appearance.
