

LINEAR LIGHT
CAN BE SO
MUCH MORE.

TAPE LIGHT IS **VERSATILE & UNIVERSAL**

Immersive, indirect lighting is the paintbrush you can use to create inviting spaces.

The small size, high quality, and energy efficiency of Lucetta linear lights makes it perfect for this moment.

COMPREHENSIVE OPTIONS

The Lucetta and Diode LED product lines complement each other and offer the designer multiple performance tiers. Now, every project has an option for its budget and performance needs.

CELESTE®

FLEXIBLE LINEAR LIGHTING

The CELESTE® light engine features true single-SDCM LED binning for complete consistency between runs of lights, color temperatures, output levels, and over time. 12-year warranty.

GRAZE X™

LINEAR GRAZER FIXTURE

Sharp, clean grazing for high-level performance is a small fixture with excellent light quality.

- Any length or color temperature
- High output, easy to conceal
- 95+ CRI / 90+ R9 value

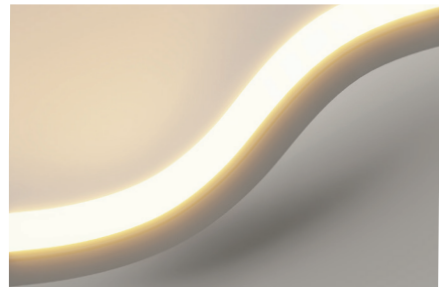

ENCAPSULATED

FLEXIBLE LINEAR LIGHTING

Full diffusion, precision light quality, and physical durability for reliably beautiful lighting. Suitable for every application, including indoor and outdoor, submerged in water, and in extreme weather conditions.

BLAZE™

LED TAPE LIGHT

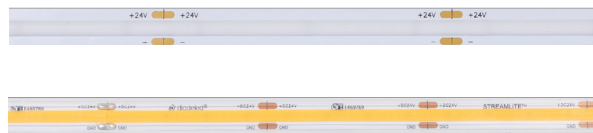

High build quality, 7-year warranty, and solid performance for everyday projects.

STREAMLITE™

DIFFUSED LED LIGHTING

Diffused, dotless light, even when used without a channel profile.

WE MAKE IT EASY SPECIFYING SHOULD BE SIMPLE

Why should specifying tape light and linear lights be so complicated?

Let us do the lifting for you, with product guidance, layouts and take-offs, drawings, and all the detailed work to make your projects flawless and your job easier.
