ARCHITECTURAL LAMINATES

Go DIGITAL...

Lab Designs Laminate proudly introduces a line of our first digital laminates. They are extremely high definition digital designs printed on the first PALIS 2250 machine in the world. These designs have an unprecedented sharpness of 1200 dpi (dots per inch) which provides a lifelike picture. The inks used have the highest international standard of six on the blue wool lightfastness scale which prevents fading even after years of use. This revolutionary new process allows Lab Designs to offer custom images to be printed on high pressure laminate.

Thickness : 1.0 MM
Size : 48.4 in (1230 mm)
96.5 in (2450 mm)
